## MORE RUMORS ABOUT SPAIN'S PHANTOM FLEET.

**Admiral Sampson Is Said to Have Cut the Cables, While He Prepares to Capture and Blockade Porto Rico.**

**THE THIRD KENTUCKY REGIMENT BEING EXAMINED TODAY AT LEXINGTON.**

Washington, May 11.—(Bulletin) It is authoritatively stated that the president has asked every governor for additional troops, to be ready immediately. According to this statement Kentucky will be asked to have five regiments in readiness by Monday next. This is supposed to mean two extra regiments, as Kentucky's quota of three regiments will be made up by that time.

Tampa, Fla., May 11.—Everything is bustle and hurry in army quarters. Transports are being rapidly loaded with guns, ammunition and supplies for the Cuban army and the troops who will accompany the expedition. Troops from various sections are arriving hourly. The Cuban regiments are thoroughly armed and will accompany the invading army on Friday, on which day the expedition is expected to move.

### KENTUCKY VOLUNTEERS.

Lexington, May 11.—The examination of the Kentucky volunteers is progressing rapidly.

The work of examining and mustering in the First Regiment will be completed today. The Second will be finished by Friday.

Today the examination of the companies of the Third Regiment will be commenced, and will be in the following order: Madisonville, Bowling Green, Bardonia, Hopkinsville, Owensboro, Glasgow, Hartford, Henderson and lastly Paducah.

At the rate of three companies per day, the entire Third Regiment will be mustered in by Monday night at the farthest. It is hoped the Third will be ready to leave for Chickamauga by next Wednesday or Thursday, but this depends entirely upon the matter of supplies, which the government has not yet furnished.

### BELIEVED THE CABLE IS CUT.

Washington, May 11.—Bulletin—It is believed here that Sampson has cut the Porto Rican cable to prevent the sending of news to Spain.

It is known that Sampson had instructions to go beyond merely meeting and destroying the Spanish fleet, and it may turn out that, in the failure to discover the fleet, he has turned his guns on Porto Rico.

### WILL MAKE QUICK WORK.

Washington, May 11.—Bulletin—The administration now believes that the capture of Havana can and should be effected immediately, even before the fleet under Sampson can capture Porto Rico, and get back. In view of the location of the Spanish fleet this is deemed a wise policy.

### MOBILIZING AT CADIZ.

Madrid May 11.—Bulletin—The entire Spanish fleet is being mobilized at Cadiz, and getting ready to sail, under sealed orders, today. The destination of the fleet is unknown.

### SHORT OF MONEY AND PROVISIONS.

Madrid, May 11.—The government intends to insist that the Cortes sit continuously until the war measures now pending before the body are adopted.

### SUPPLIES FOR DEWEY.

Washington, May 11.—The administration believes that Spain intends to relinquish Cuba, in order to end her fleet to the Philippines, and has therefore ordered reinforcements sent to Dewey Friday. The Charleston sailed this afternoon with ammunition and supplies from San Francisco.

### TWO ENGAGEMENTS AT ONCE.

Washington, May 11.—Naval and military operations against Porto Rico will begin simultaneously with those to be directed against Cuba.

In anticipation of the early completion of the naval work, the war department is making preparations for the prompt dispatch of a large body of troops, which will land under the fire of the guns of the American men-of-war and capture the city of San Juan.

The withdrawal of the Spanish fleet to Cuba leaves it out of consideration for the present, and San Juan will now be the object of the attack. Admiral Sampson's fleet is attacking San Juan he will use the coal, and it was suggested

### BY LAND AND SEA.

Washington, May 11.—Cuba may be invaded and an attack made on Havana by the army from the rear and by the navy from the front with a week from today.

The movement on both land and sea will be quick, vigorous and decisive.

An army will be at once landed in Cuba sufficiently large to preclude all possibility of a single defeat to the invading army.

There will be no delay in putting regulars and volunteers on Cuban soil.

It is said the President is very anxious for Cuban invasion to begin immediately. Troops which were yesterday ordered to mobilize at Chickamauga are to go as soon as possible to Tampa, Mobile and New Orleans for transportation.

It is proposed that the entire invading army be centered at these three points from which it will embark for Cuba.

### PORTO RICO EXPEDITION.

Washington, May 11.—It has been officially stated here today that General Merritt will lead the expedition to Porto Rico, and after the capture of the island, he may be appointed its military governor.

The attack on Porto Rico will be made simultaneously with that of Cuba, and it is hoped that within a week or ten days the island will be occupied by American forces and San Juan captured.

The governor of the island is laying in large supplies of provisions, and is preparing for a long siege.

The War Department, however, looks for a quick capture.

### TORPEDO BOAT EXPLODES.

Gibraltar, May 11.—It is officially confirmed here today that a torpedo boat acting as a scout, exploded her boilers off here yesterday and killed her entire crew.

### KENTUCKIANS FOR CUBA.

Washington, May 11.—It is believed certain here this afternoon that at least one Kentucky regiment will go immediately to Tampa to join the invading army for Cuba.

### MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home—makes the clothes right, makes the bill right. It costs but a trifle more to wear garments that fit than those that almost fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited—it will cost you so little.

### FATAL FIRE.

Three Toy Workers Cremated in a Burning Factory.

Philadelphia, Pa., May 11.—A toy factory and two adjoining houses burned here today. Three toy workers were burned to death and several others are missing. The property loss is heavy.

### NOTICE, RECRUITS.

Chief Surgeon Boyd, of the Third regiment, this afternoon wired Dr. H. T. Rivers that five more men were needed for company K, and requests those who desire to be examined for the places to apply at the Boyd Infirmary tonight between 8 and 9 o'clock. Transportation will be provided at once, and those who are selected will leave tonight.

### THOPHY ON EXHIBITION.

The silver can of smokeless powder to be won at the shoot of the Paducah Gun club is now on exhibition at the DeLacassess.

### NATIONAL RESERVES.

Capt. W. G. Whitfield, has been appointed to get up companies of national reserves, such as are being gotten up all over the country, for Paducah, and expects blanks in a few days.

### NEW GENERALS ASSIGNED.

Washington, May 11.—Major General Sewell has been assigned to command the concentration camp near Falls Church, Va. This is taken as an indication that the general has concluded to accept his military commission, risking his tenure of office as a senator thereby.

The orders issued from the war department today reads as follows:

The following named officers are ordered to report to the Adjutant general for duty with the troops to go into camp at Washington, D. C.: Major-General Sewell; Brigadier-Generals Poland, Kent, Young, Randall, Schwan and J. C. Bates.

None of the corps commanders have yet been assigned finally, although the entire list of commands has been prepared. The three civil-military generals are not to receive such commands but are assigned to divisions. Gen. Lee, Wilson and Wheeler going to Chattanooga for duty under Gen. Brooke, who will undoubtedly command one of the army corps.

The war department officials admitted today that all the regular troops now at Chickamauga had been ordered away. They refuse most positively, however, to tell the destination of the troops, contending that to do so would be to invite attacks by Spanish naval vessels upon the transports which will convey them.

The volunteers will take the camps abandoned by the regulars in Chickamauga park. Nine of the new brigadier-generals have been assigned to duty under Major-General Brooke and will "click" the raw recruits into shape at Camp George H. Thomas.

They are Brigadier-Generals Briggs, Compton, Sumner, Snyder, Henry, Bert, Lawton, Chaffee and Davis.

Gen. Schwan, who is one of the brigadier-generals assigned to duty at the Washington concentration camp, is at present principal aid to Adjutant General Corbin and has just been promoted to the rank of brigadier-general.

### WANT MORE MEN.

Capt. B. B. Dav's Wires for More Soldiers to Come at Once to Lexington.

It is Not Known Why They Are Wanted—Will Be Easily Found.

Mr. Luther Ballowe, who was left out when the soldiers left Paducah, received a telegram today from Capt. Davis, telling him to come on to Lexington and bring three men with him.

It is not known why these men are wanted, unless it be that three or four there are some who have backed out, and will not enlist in the U. S. army. When they were mustered in here, it did not compel them to enlist in the regular service.

No company will be mustered in at Lexington unless there are at least 77 men in it, and this will likely leave more than one short.

It is not known who will respond to the call.

### SOLD LIQUOR.

F. A. Bivins, a prominent resident of Gilbertsville, Marshall county, was tried before U. S. Commissioner Puryear yesterday afternoon late on a charge of selling liquor without a license, and was held to answer.

He was released on his own bond, to appear at the next term of court, and returned home last evening.

### TELEPHONE LINE.

The Long Distance Telephone will Soon Be to Hickory Grove.

Supt. Joynes, of the East Tennessee Telephone company, reports that the line men have gotten fifteen miles out, and will be in Hickory Grove by the end of the week. The line will then be extended to Lowes and other points. The work of building the long distance line to Cairo, and other places along the line, has not yet begun.

### MARRIAGE LAST NIGHT.

Mr. Lee Potter and Miss Fannie A. Davis were united in marriage last night. They live in the Lowes section of the county, and were married by Rev. Stewart. The bride is a daughter of John Davis, and the groom a brother of Officer Tom Potter, of the city police force.

### STREET CAR IMPROVEMENTS.

Work will begin in a few days on North Sixth street, on the line of the Paducah Street Railway Co., to repair the tracks. The rails will all be

torn up, as was done on Broadway a few days ago, and the bed will be made level and filled in with fresh gravel. The work will require some little time, as the track will have to be torn up from Broadway to Trimble street.

### ARTILLERY HARNESSES.

E. Rehkopf & Son Get a Government Contract for 75 Sets.

The Rehkopf firm today secured another good government contract. It is for seventy-five sets of artillery harness, made of the best material and in the most workmanlike manner. The contract is one of the best ever received, and will be filled at once.

It requires one week to make two sets of harness, and it may be several days before it is ready for delivery. The workmen at the factory are now working night and day to fill their contract.

### LOST CHILD FOUND.

Officer Gray Finds One on Court Street.

This forenoon Officer Gray found a well-dressed little girl, apparently about 3 years old. Her hair is light, eyes blue, and her little face was covered with dirt. Her shoes were caked with mud, and she could tell nothing of herself nor where she lives. The kind hearted officer took her home and found that she was very hungry. Up to this afternoon no one had called at police headquarters to find out anything about a lost child.

This afternoon a man appeared at the city hall and said a lady residing on Jackson street between 5th and 6th, had lost both her boy and girl, and that the girl had been found at Officer Gray's, but the boy was still missing. The names could not be learned.

### MARRIED IN METROPOLIS.

Marshall County Couple Married There This Morning.

Mr. Rollie M. Edwards and Miss Ina Crowell, well known young people of Marshall county, eloped to Metropolis this morning, passing through the city.

They were married at the Copeland Hotel at 11 o'clock by Justice Thomas Liggett, and arrived this afternoon on their way home, to seek forgiveness.

### EXCURSION VIA ILLINOIS CENTRAL R.R.

Summer rates are now in effect to Dawson, Grayson, Cerulean, Crittenden and other summer and health resorts, good for 30 days.

On May 17, and June 7, and 21, home-seekers excursion tickets will be sold to various points in Tennessee, Mississippi, Louisiana, Arizona, Arkansas, Texas, Indian Territory, and other states at one fare for the round trip. Good for 21 days to return. 11mtf J. T. DONOVAN, agent.

### ANOTHER CANDIDATE

Hon. Bud Reeves, of Wickliffe May Be the Man.

He Was Once a Senator From This District.

Hon. Bud Reeves, of Wickliffe, is, in the city, and it is said by his intimate friends that he will likely make the race for congress now on, unless Ben C. Keys, the Callaway county populist, runs in the democratic primary. In the latter event, he is said to be unwilling to enter the contest.

Mr. Reeves is well known in the district, having at one time been a senator from this district. He has since been a resident of Montana, and recently made the race there for governor.

Politics is becoming somewhat complicated in the congressional race just now, and it is as yet unsettled whether Ben Keys will run in the primary or not. It is said by those who profess to know that Keys is now dickering to find out whether or not he can get the nomination of the populists at the district convention at Lexington on the 18th of this month. He has little show of it, it is said, and will then be forced into the democratic primary, if he runs at all.

### POLICE COURT.

The Weakly Case Continued Until Tomorrow.

George Weakly, colored, was tried in the police court this morning on a charge of detaining Anna Rowlett, against her will. The plea made by Weakly was the same old plea, the woman consented to him for money. All the witnesses were present, and the case was continued until tomorrow, and Weakly was remanded to jail. It is his fourth offense. This was the only case in the police court this morning.

### ELKS' NEXT MEETING

WEDNESDAY, MAY 11, 1898.

When the American eagle screamed at Manila the Spaniards realized that the Yankees were not all pigs.

ADVICE from Hong Kong state that Rear Admiral Dewey floods the insurgents at Manila growing dangerous. It is added that he can not control them, nor can he enable the Spaniards to do so. Massacres are reported to have occurred outside of the city, the insurgents butchering even the Spanish women and children.

The work of the army in Cuba will consist mainly in the establishment of order. There may be some fighting at the outset, but the Spaniards are probably in no condition to hold out against the well-fed, well-armed and well-drilled Americans.

The fall of Havana will quickly follow that of Manila, and after the end.

It is easy enough for the ministry at Madrid to send orders to the governor general of the Philippines to resist to death an attack on Manila, but it is not apparent how he is to receive them, as he seems to be pretty effectually bottled up. Even if the order should reach him, it is not clear what good resistance could do unless to bring about the destruction of the city.

EVIDENCE of its richness is given by the fact that Cuba was self-supporting as early as 1827. Since that time it has prospered steadily and exceedingly. It has paid Spain from \$1,000,000 to \$6,000,000 yearly. It is a country wonderfully prosperous, and increases in prosperity when let alone by its own and other peoples. It has grown steadily richer despite the fact that its per capita taxation is three times that of the United States. Now that Spain must forever keep hands off the little island, and American thrift will be infused into its slow Southern veins, we shall see great things from it.

Tax climate of Cuba is in many parts delightful. Being insular, the heat of the sun is much tempered by cooling breezes from the surrounding waters. It is much more healthy than is commonly supposed, the higher portions being comparatively free from the deadly disease of some of the lowlands. The fearful malarial fever which has been so common in the island, is now being exterminated.

The city of Clarksville is due this afternoon from Ohio river points.

The City of Paducah leaves St. Louis this afternoon for Tennessee river points.

The Buckeye State from Cincinnati passed down this morning early for Memphis.

The Butterfield was in and out for the first time on time today.

## NO POWER

Dare Say Nay If We Decide to Keep the Philippines—Opinion of Sir Charles Dilke.

Eminent English Authorities Express Interesting Views of the Situation.

New York, May 12.—A dispatch to the World from London says: Sir Charles Dilke, when asked whether any question of international law or practice affected the United States' right to retain the Philippines, said: "None whatever. The United States will hold the Philippines by right of conquest. No power or powers will have the slightest title to interfere."

"But may not some power, Germany or France, for instance, bring pressure to bear on the United States to surrender them?"

"That idea of continental pressure I regard as all moonshine. No power would attempt pressure unless we were in the same boat with them, which we never would be. Without English naval support no power could take any action in the matter."

"Do you consider that the United States should retain possession of the Philippines?"

"Certainly I do. The only alternatives are some kind of autonomous republican government, which would need so much American protection that the United States might as well hold the islands themselves. Then there is handing them over to Japan; but that would excite the opposition of public sentiment in the United States, Japan being a so-called Pagan nation. Another alternative is returning them to Spain. But that, too, would excite serious opposition in the United States, and may be dismissed as out of the question. It is true that at the end of the great war with France we gave back all or nearly all the territory we captured, but that is not a parallel case, as we were ostensibly fighting for the King of France."

"Would the United States have to keep a large force of troops in the Philippines?"

"Considerable force would be required, and, of course, the United States would be compelled to largely increase her navy."

"Do you think the general effect of the United States' retention of the Philippines would be to bring nearer the possibility of an Anglo-American alliance?"

"It would increase their interests in common, but I don't wish to say anything about the alliance idea, as I do not believe there will ever be an alliance between Great Britain and the United States."

Sir Henry Haworth, M. P., a leading authority on foreign politics and international law, said: "I have no hesitation in saying that the United States have a perfect right to keep the Philippines, and under the circumstances it would be both wise and proper for the United States to keep them. There is not a consideration of international law that could in any way fetter the United States in its absolute discretion in the matter. There is no third party involved. The islands were discovered by Spain, and her sovereignty has never been in dispute. By the right of conquest, therefore, America's position is indisputable, and all the members of parliament who are authorities to whom I have spoken agree that the United States should not give them up. Spain found it impossible to govern them in the past, and would find the difficulty still greater in the future. If they were handed over to England it would provoke a multitude of difficult questions. If Japan got them it would also provoke great jealousies. Should the United States annex Hawaii together with the Philippines, these would constitute two magnificent bases, giving the United States immense power in the Pacific, which I always hoped they would achieve in the interests of civilization and commerce."

The Oregon.

Lloyds agent at Bahia, Brazil, cables: "It is reported that two American warships entered here, cause unknown, at 10 p. m. on the 9th and proceeded at midnight."

The warships referred to are probably the battleship Oregon and gunboat Marietta. The former arrived at Bahia on Monday last, May 9. The Marietta was probably with her, but was not reported. No direct news from Bahia has been received since.

Allowed to Leave.

The French sloop of war Fulton, a school ship, passed out of Havana harbor at about 4 o'clock yesterday afternoon unmolested by the blockading fleet. The American warships lying outside the harbor closed in on her when she was espied in the offing and the Mayflower, temporarily flying the admiral's pennant, passed close enough to her to examine her with marine glasses.

The Mayflower dipped her flag and the Fulton returned her salute. The Mayflower signaled the other ships, and they all hailed off and gave the Frenchman a wide berth.

The Associated Press dispatch boat ran alongside the Fulton, within easy hailing distance. Aboard the vessel were a number of Spanish refugees, who crowded up to the rails.

Several of them were women, evidently of the wealthy class, judging from their apparel. There were doubtless some French citizens among the refugees, but the majority were unquestionably Spanish.

The Kate Spencer saluted the tricolor as she passed under the Fulton's stern, and the salute was acknowledged.

Some of the sailors swung their caps above their heads, but the refugees at the rails looked sullen and made no sign. The Fulton headed southwest, probably bound for Vera Cruz, Mexico.

The Condition of Havana.

A correspondent says: Business at Havana is at a standstill, and many of the shops and stores are closed. All of the cigar factories have shut down because there is no way of shipping the cigars. The large Henry Clay cigar factory closed two weeks ago, but is dividing \$2,000 a week among its employees. There is fresh meat in the city for several days yet, and it was selling on May 9 at 60 cents a pound in sidewalk. Spanish silver has dropped all most 60 per cent below our currency. The prices on all kinds of provisions, with a few exceptions, has been raised only 30 per cent. Some articles had gone away up. Condensed milk was selling at \$1.20 a tin.

There are plenty of provisions in the city for at least a month, and the government will probably regulate

log interest in the association is the building of a fine natatorium or swimming tank. The matter is being vigorously talked among the members and before the week closes it is probable that the Y. M. C. A. natatorium will be a certainty.

The ladies' committee is preparing to give a strawberry supper on the lawn of the association building, next Saturday evening. This will be the first entertainment of the kind given this summer and the committee is planning to make it a most enjoyable affair.

The choir of the Baptist church will give a concert next Tuesday night for benefit of the well known and popular Blind Joe Mangum, who will be here at that time. The concert will be given in the association hall.

### IN SOUTHERN WATERS.

#### Winslow Does Good Work.

A dispatch to the World from Key West says: The torpedo boat Winslow engaged three Spanish gunboats off Cardenas Bay Sunday afternoon. She disabled one and came out unscathed. Lieut. Bernardo, Ensign Bagley and the men of the Winslow thought the odds of three to one fair and four-pounders a match for the Spanish aggregation of six-pounders. It was a brilliant minor engagement.

#### Spanish Fortification.

The Hornet and the Winslow, now blockading Matanzas, have had five times as many days shelling Spanish details at work on batteries and telegraph lines outside of the entrance of the harbor. There, as at other points, most of the work is done at night, and each morning fresh earthworks thrown up like fresh art hills against the rusty green old coast line.

On Sunday morning the Hornet found a party putting a telegraph line up from the lighthouse and signal station, a mile east of Matanzas, to the batteries west of Point Sabanailla, on the other side of the bay. The batteries here are said to be of some magnitude, mounting a few high power guns. To stop this telegraphic activity the Hornet steamed quietly in and dropped a shell in the midst of the workers. They scattered like rabbits and the line grounded then and there. Several other telegraph parties have been discouraged in the same way at other points. It is evidently the intention of the Spanish to establish communication by wire with all their coast block-houses and batteries, with a view, possibly, of massing troops and guns to oppose a landing whenever threatened. Hereafter they will probably carry their wires behind the first range of hills, where they will be less subject to sudden interruption.

It is now possible that there are enough heavy guns at the command of the Spaniards to mount them in all the new sand batteries springing up, but as there is a railway from Havana to Matanzas, quite close to the coast, the authorities may be declining to believe with the idea that they can transport heavy guns to the batteries nearest to the threatened landing point whenever the watchers telegraph the appearance of the American troops off the coast.

The Oregon.

Lloyds agent at Bahia, Brazil, cables: "It is reported that two American warships entered here, cause unknown, at 10 p. m. on the 9th and proceeded at midnight."

The warships referred to are probably the battleship Oregon and gunboat Marietta. The former arrived at Bahia on Monday last, May 9. The Marietta was probably with her, but was not reported. No direct news from Bahia has been received since.

Allowed to Leave.

The French sloop of war Fulton, a school ship, passed out of Havana harbor at about 4 o'clock yesterday afternoon unmolested by the blockading fleet. The American warships lying outside the harbor closed in on her when she was espied in the offing and the Mayflower, temporarily flying the admiral's pennant, passed close enough to her to examine her with marine glasses.

The Mayflower dipped her flag and the Fulton returned her salute. The Mayflower signaled the other ships, and they all hailed off and gave the Frenchman a wide berth.

The Associated Press dispatch boat ran alongside the Fulton, within easy hailing distance. Aboard the vessel were a number of Spanish refugees, who crowded up to the rails.

Several of them were women, evidently of the wealthy class, judging from their apparel. There were doubtless some French citizens among the refugees, but the majority were unquestionably Spanish.

The Kate Spencer saluted the tricolor as she passed under the Fulton's stern, and the salute was acknowledged.

Some of the sailors swung their caps above their heads, but the refugees at the rails looked sullen and made no sign. The Fulton headed southwest, probably bound for Vera Cruz, Mexico.

The Condition of Havana.

A correspondent says: Business at Havana is at a standstill, and many of the shops and stores are closed. All of the cigar factories have shut down because there is no way of shipping the cigars. The large Henry Clay cigar factory closed two weeks ago, but is dividing \$2,000 a week among its employees. There is fresh meat in the city for several days yet, and it was selling on May 9 at 60 cents a pound in sidewalk. Spanish silver has dropped all most 60 per cent below our currency. The prices on all kinds of provisions, with a few exceptions, has been raised only 30 per cent. Some articles had gone away up. Condensed milk was selling at \$1.20 a tin.

There are plenty of provisions in the city for at least a month, and the government will probably regulate

the prices so that they will not go much higher.

So far there has been little suffering from hunger, except among the reconcentrados. They are in very bad shape, and may die of starvation even if Havana be captured within the next two weeks.

Food for them sent to Gen. Lee has been seized for the army.

The city has been in semi-darkness ever since the bombardment began. Every afternoon the open space about the queen's battery is thronged with thousands watching the ships on guard before the city.

A number of schooners that have been seized have been captured five or six miles off Morro and within plain sight of the throngs on shore.

Absolutely no authentic news from the outside world has been published for days, and they are completely ignorant of what is going on in Spain.

Gen. Blanco has done everything possible to try to persuade the insurgents to join the Spaniards against the Americans. He has failed.

Snailpox, which has been raging for some time in small towns outside the city, has apparently been brought into the city by the troops, and within the last few days many cases have broken out in Havana, Regla and Guanabacoa. There is very little fever, there are a few cases in the military hospital in Regla.

Several of the wealthy families have left the city for Mexico, having reached the Isle of Pines in fishing smacks.

Some provisions are also to have been brought into Havana from Mexico over a similar route.

THE HERO, DEWEY.

His Relation to a Notable Family of Life Insurance Men.

Many persons in Louisville and generally throughout the country, who are members of the National Life Insurance company of Vermont, of which Casseday & Lane are the Kentucky representatives, will be interested to know that the hero of the hour, Commodore Dewey, is the brother of the president of that company, and son of its founder and first active president, Dr. Julius Y. Dewey, who in the little town of Montpelier laid the foundation of a great business. Nearly all of the incorporators of the company were men of distinction, among them being Henry Clay, Amos Abbott, and others eminent in national affairs. But it was the sound judgment and indomitable energy of Commodore Dewey's father—qualities illustrated in the son—that built the solid structure of the National. Upon Dr. Dewey's death in 1877 the commodore's brother, Charles was elected to the presidency, which office he still retains. Another brother, Edward, was for many years vice president and is still a director of the company.—Courier-Journal.

Capt. J. Will Fisher represents the above company in this city and swears by it.

NECESSARY CHANGES.

Washington, May 11.—Changes in the central mobilizing points of the volunteers from those announced by the war department yesterday already have been made necessary for several reasons, the main one being the decisions reached to begin at once an active campaign in Cuba and to send troops to the Philippines. Those from Montana, said Senator Carier, would be assigned to proceed promptly to San Francisco for passage to Manila. There is a full regiment of 950 men, fully equipped and ready for service. It is said also that the regiment of infantry from Colorado in all probability will be ordered to the Philippines.

ARM IN ARM.

Cadiz, May 11.—The crew of the German cruiser Oldenburg was allowed liberty ashore yesterday, and the sailors of that vessel ostentatiously fraternized with the sailors of the Spanish battleship Pelayo. The Germans marched through the streets arm in arm with the Spaniards, wearing each other's caps. The Germans were greatly cheered by the populace of this port.

**THE TOMB OF OSIRIS.**

Said to Have Been Discovered by Arch-  
aeologists in Egypt.

From Egypt, the happy hunting  
ground of archaeologists, a discovery  
is now reported which throws all  
others into the shade. The tomb of  
the god Osiris is said to have been  
identified at Abydos, near Luxor. For  
some years the excavators, under sci-  
entific guidance, have been unearthing  
manuscripts of Egyptian lore, and  
even of classic poems written in the  
fifth century before the Christian era;  
they have brought to light the cof-  
fins and bodies, the pottery and vases  
of stone, the personal ornaments and  
sculpture, even the household utensils  
and tools, of people who lived under  
the earliest dynasties, and who may  
have been dead, at the very least 5,000  
years. But, besides these, relics have  
been found, by Prof. Flanders Petrie  
and others associated with him in this  
work, of earlier and ruder peoples who  
wrought their weapons of flint, and  
were seemingly ignorant of the use of  
metals.

But now, M. Amelineau has been  
so fortunate as to light upon the tomb  
of Osiris—a vault, built of unburned  
bricks, containing a granite cenotaph.  
The former, according to M. Loret, the  
director of the excavations, is extremely  
ancient. He considers the granite  
cenotaph to be later in date—perhaps  
that of Seti I; but if so, its makers  
have adopted an archaic design, or  
possibly it may be a reproduction of  
the one which originally occupied  
the vault. Of this cenotaph, he states  
that an exact representation may be  
found on the wall of the temple built  
at Abydos by the above-named mon-  
arch, who is also known as Sethos. He  
was the second king of the nineteenth  
dynasty, which began about the middle  
of the fifteenth century before the  
Christian era, and was only  
equalled by his son, Ramses II, as a  
builder of magnificent structures. On  
first thought, the tomb of a deity is  
not exactly what we should expect in  
connection with one of the old reli-  
gions. But it has its place in the  
legend of Osiris, and the whole story  
of this divinity is strange and per-  
plexing.

The religion of ancient Egypt was  
curious of polytheism with an under-  
lying and often much observed idea  
of monotheism. The former, how-  
ever, dominated in the minds of or-  
dinary folk; and among the members  
of the Egyptian Pantheon, according  
to Lepsius, there were two cycles or  
systems—one representing the learn-  
ing of Memphis, the other of Thebes,  
the successive great capitals of Egypt.  
The former, the group of Ra, re-  
gards as the primitive solar group, ex-  
pressive of the most ancient form of  
Egyptian religion; the latter, that of  
Osiris, was the successor of a still  
more ancient time, whence came  
Manes, the first king of Egypt and the  
founder of Memphis itself. At Aby-  
dos, then, if anywhere, the tomb of  
Osiris should exist. But what need  
had Osiris of a tomb? Because death  
was an important episode in the his-  
tory of the deity—so important that  
he is generally represented as a mummy,  
wearing the royal cap of upper  
Egypt, flanked with ostrich plumes.

The myth of Osiris is the most in-  
teresting, because it is the most hu-  
man, part of Egyptian mythology. It  
represents an incarnation of the di-  
vine. Stripped from the baser poly-  
theistic associations and the grosser  
forms of the legend, Osiris is the good  
principle, the creator, and, like Ra, is  
engaged in perpetual warfare with  
evil, which, however, is near akin to  
him—his brother or his son. Thus  
the two, Osiris and Set, represent light  
and darkness, the opposing principles,  
whether in the physical or the moral  
order. Throughout they appear in  
the sacred books in conflict for right  
and wrong, for the salvation or de-  
struction of the soul of man. The two  
divinities engaged in combats under  
human forms. Osiris is vanquished, is  
cut to pieces, and submerged in the  
water. Here, then, we have the her-  
oic explanation of the tomb. But the  
deity revives again, and his son, Horus,  
takes vengeance on Set, who, how-  
ever, is scotched, not killed. Of the  
whole myth various explanations,  
as might be expected, have been given,  
some more distinctly ethical. But  
Osiris seems to have held a special  
place in the affections of the ancient  
Egyptians; he was "the type of hu-  
manity, its struggles, its sufferings,  
its temporary defeat, and its final vic-  
tory." The wonders of Luxor and  
Karnak are proverbial, but Thebes of  
the Hundred Gates, if this discovery  
be substantiated, has never disclosed  
a more wonderful relic of the far-off  
olden time.—London Standard.

## WRITTEN AT RANDOM.

Dr. Waddie Lang is responsible for  
the following story:

Not very long ago a lean, sickly  
looking young man from the country  
entered the drug store, and began  
looking over the shelves at the vari-  
ous medicines there arranged. The  
clerk was all busy at the time, and  
when they finally got to him, he  
pointed to a bottle of female remedy,  
and said to wrap it up for him.

Supposing that his wife was ill,  
he paid for the medicine, and carried  
it away with him. Nothing more  
was thought of the incident until  
about a month later, when he again  
put in an appearance, and called for  
another bottle. He was looking  
greatly improved, and seemed in ex-  
cellent spirits. He again paid for  
the medicine, and in about another  
month, reappeared and asked for  
another bottle.

"If any one wants to know what's  
a good tonic," he vouchsafed to Dr.  
Lang, "you just tell 'em that this is  
the stuff. I've gained about thirty  
pounds since I began taking it!"

Dr. Lang looked at the man in  
surprise, but divining that the fellow  
didn't know any better, his astonish-  
ment changed to amusement, and he  
thanked the customer for his recom-  
mendation, and promised to profit by  
it the first time a fellow came in and  
asked for a good tonic.

"I remember when quinine sold  
for \$5 an ounce, and the doctors all  
dressed it out on the point of a knife,"  
avowed an old citizen yesterday.  
"Now it sells for about 60 cents  
an ounce, and they give it by the barrel.  
It used to do people as much good  
in small doses as it now does in large  
ones, too, or at least they thought it  
did."

"A congressman once told me that  
he was offered \$5,000 to vote against  
putting quinine on the free list, but  
the effort was never successful so far  
dealt the bill, and the result is we  
have it at reduced rates now."

The soldiers have had enough to  
endure from the very start, according  
to their letters, to disillusion them  
in their idea of military life, but  
they accepted it all with commenda-  
ble grace, and seemed to take it as  
good naturedly as if they fully ex-  
pected it. A great many of them  
will miss their good meals, and will  
doubtless find that they gave up a  
great deal for their country, and they  
deserve all the more credit for it.  
The worst will be now, in the begin-  
ning, however, for they are wholly  
unused to such hardships, and such  
hardships are very much harder  
to bear now than they will be when  
the boys become more accustomed  
to them. At present they are all hav-  
ing a jolly good time, and seem to  
regard it all as a joke, but under the  
rigid rules of the army, there will be  
no foolishness, and the boys will have  
to become men, act like men, and be  
treated like men.

A pug dog was found in the deep-  
est of the main sewer this morn-  
ing at daylight by the workmen. The  
canine seemed worn out with a vigil  
that was fruitless, and was very glad  
indeed to be placed in one of the big  
buckets, and hoisted to the top,  
fifteen or twenty feet above. How  
the animal got to the bottom is a  
mystery, as he was uninjured, and  
evidently did not fall from the top.

A day or two since Dr. J. G.  
Brooks was a pall bearer for the first  
time in his life, with the exception of  
a few times he acted as an honorary  
pall bearer at the funeral of a doctor  
or two. The doctor has been at  
thousands of death beds, and all  
that he has been to only a few  
funerals in his life, and was never a  
pall bearer until last Monday. It is  
just one of those peculiar things that  
happen "just because they do," like  
a lady said not long since, is speaking  
of her own experience in never having  
attended a funeral or a marriage in  
her life. She did not know why she  
had happened that way, but it had  
just the same.

There is a tree in the yard of the  
Boyd infirmary from which the luxur-  
ient growth of leaves is rapidly fall-  
ing, and without any apparent cause.  
The leaves first began to fall about a  
week ago, and now they have fallen  
to such an extent that the entire yard  
is covered with them. The phenom-  
enon, for it certainly looks like one,  
has attracted no little attention from  
passers-by, and no one has been  
found who can vouchsafe an explana-  
tion for it.

One of the soldiers of the Paducah  
company who was most impatient to  
go to war, has gotten his bill, evi-  
dently, this soon in the action.

A letter was received from him yester-  
day, in which he said—"To  
hell with this army business!"

Another young man wrote to his  
uncle a very affectionate letter, and  
said that he missed the home folks  
very much, but missed the three meals  
a day far more. He concluded the  
epistle with the words, Dear Uncle,  
Please send me a dollar or two to buy  
something to eat."

Still another young man said peo-  
ple didn't know what a blessing "free  
huelches" were until they got away  
where they couldn't get the benefit of  
them.

opened in the city yesterday at the  
St. Charles hotel, with B. J. Waller,  
chairman of the local committee,  
the chair, and with an immense at-

was escorted from the St. Charles  
hotel to the theater by the local lodge  
and with music, and at the theater  
B. J. Waller, of the local order, open-

siding the visiting officers. Miss  
Florence Huberwald then read a pa-

Elks.

Mayor Flower followed with an ad-

dered a selection. Exalted ruler  
of the local lodge, John Fitzpatrick,  
spoke for the New Orleans anti-  
lers, and after an admirable address  
of Exalted Ruler Detweiler on the prin-  
ciples of the order and the warmth of  
the welcome extended, "America"  
was sung and an adjournment had.

## MILITARY MATTERS.

Lexington, May 11.—The news  
from Washington that the volunteers  
would be sent to Chickamauga, as  
fast as they were ready to march,  
caused a flutter of excitement in  
Camp Collier, where the Second and  
Third regiments, Kentucky volun-  
teers, are quartered. Every one of  
the recruits so far questioned is wild  
with joy at the seeming opportunity  
to move forward. They are eager  
for the quick arrival of the equip-  
ment ordered by Capt. Ballard from  
Washington, and which, it is  
thought, will be here by the last of  
next week at the furthest.

The soldiers are being put through  
a great deal of work. Instead of  
the light drilling received last week  
in small doses, they are now required  
to drill about six hours a day. The  
drilling is done about half a mile  
from the camp, in the beautiful wood-  
land of Col. Hart Gibson, on the  
Harrodsburg pike, known as "Ingles-  
ide." It was formerly owned by  
John Watts Kearney, Sr., of New  
York, once of Louisville.

The three surgeons of the Third  
regiment, Dr. Frank Boyd, of Paducah;  
Dr. Arthur Bell, of Hopkinsville,  
and Dr. E. V. Garrett, of Frankfort,  
were mustered in yesterday.

Capt. Balance was interviewed re-  
garding the time necessary to get  
the Kentucky troops into the field.  
He said:

"We cannot leave here until they  
are equipped, and I'm afraid that they  
will be a long time. It is doubtful if  
the wool has been sheared for the  
Kentuckians' uniforms, and you  
know we cannot go into a campaign  
until they are properly uniformed.  
We are getting along very slowly, for  
all this work is new and we have no  
precedents to go by. The same rules  
which were in force when the volun-  
teers of the civil war were being  
mustered into service do not apply  
now, and it is a much slower business  
than it was in those days."

Col. Galtier opened a recruiting  
station at regimental headquarters,  
and is anxious to enlist as many men  
as possible. He foresees that a great  
many of the men who have come here  
from their respective homes will not  
be able to pass a satisfactory physi-  
cal examination, and that many of  
the companies will be short of their  
quota, thus making it impossible to  
even muster into the service the offi-  
cers of the company, for there has to  
be seventy-seven men in a company  
before it can be taken into United  
States service.

Three well known commanders of  
light house boats that come to Paducah  
are distinguished in the navy.

Capt. Lilly, who is very popular in  
society here, is now on the Vicksburg,  
down on the gulf, and had a close  
call near Havana the other day,  
having ventured in range of Spanish  
guns unexpectedly.

Capt. Wise, also at one time of the  
Lilly, is now on the Concord, and is  
one of the best known men in the  
navy.

Capt. Berwell, of the Joseph Hen-  
ry, which will leave Paducah tomor-  
row for Memphis, is the man who  
mounted the guns on the Baltimore,  
Raleigh and Pease, and has been in  
the service thirty-six years. He re-  
cently received notice to be ready to  
leave at a moment's notice.

## AARON MOSS, WITH ALIASES,

Bobs Up Serenely Again, After Being in Jail Here But a Short Time—In Hock in Cincinnati.

He Was Working Another Fraud There—Will Likely Go Over the Road—Married a Paducah Girl.

Aaron Moss, alias H. C. Brown, the man who was in jail here for several months on a charge of obtaining money by false pretenses from Hon. Chas. Reed, of the Palmer house, is now in trouble in Cincinnati. He was arrested there a day or two since for obtaining money and goods by false pretenses.

Moss, alias Brown, was only released from jail here a few weeks ago, the case against him being dismissed because the witness from Mt. Carmel, Ill., by whom it was expected to be proven that the names to the bogus drafts given Mr. Reed were forged, could not be gotten here.

Brown, it will be remembered, came here and professed to represent the Associated Press, and had some sort of an advertising scheme. He gave Mr. Reed a draft to cash one day, and then went to Metropolis with Miss Emma Duval, to whom he was married. They went to Hamilton, O., where Brown was arrested and brought back. It then developed that he had served seven years in the penitentiary at Chester, Ill., for forgery. He was held to answer, and remained in jail for several months before he finally received his liberty. The last seen of him he was out at the "Y" waiting for a train.

Monday's Cincinnati Enquirer says: "The young man who was arrested Saturday afternoon by Detective Keating on complaint of a number of merchants who had entertained him largely because he had given them large orders was brought before Chief of Detective Hazen yesterday morning. As published in the Enquirer he gave his name as Aaron Mayer, and claimed to be the buyer for J. Freyhan & Co., of Bayou Sara, La. Telegrams to one of the merchants here from Freyhan & Co. stated that he was not connected with the firm. Mayer, however, when he was arrested said that he was buyer for the firm. He repeated the story to Chief Hazen, but when the latter questioned him closely he broke down and confessed that his right name was Aaron Moss, and that he had severed his connection with the Bayou Sara firm about two years ago.

"He also admitted that he had been in Hamilton, Ohio, as the telegrams found on him indicated. He said that he wanted to start a bank there, but could not induce capitalists to invest. His brother-in-law, who resides in this city, is in business in Hamilton, and he expects that he will come to his rescue. Moss said that he had only been married a few months, and was trying to get a divorce. He is not a stranger to this city, and claims to be a relative of the Feischmanns, Pollacks and Benjamins. A charge of practicing a trick game will probably be placed against him in the morning. Moss cannot account for his actions, and says that he does not know why he ordered the goods."

### DEFENDANT WINS.

The jury in the case of Geo. P. Rogers against the Union Central Insurance company, yesterday afternoon rendered a verdict in favor of the defendants. The case had been with the jury for thirty-six hours. The case, it seems, was based on the fact that the late Mr. Alf Rogers gave a note for his insurance premium, and the note was not paid at its maturity. He died before it was paid, and this cancelled the policy.

### PULLMAN'S TROUBLES.

Pullman cars bearing Spanish names are now boycotted at some places in the east. Miss Pullman, who named the cars, picked out poetical appellations, such as Cadiz, Mercedes, Seville, Blanco, Andalusia and Castile. Some travelers object to those names, and will not even use the Castile soap furnished by the Pullmans. If the war goes on many of the cars will have to be sent to the shops to get new names.

### DAMAGE SUIT DECIDED.

The jury in the case of F. G. Rudolph against the Illinois Central yesterday brought in a verdict in favor of the defendants. The suit was for damages.

### ANOTHER RISE EXPECTED.

Rivermen have about come to the conclusion there is going to be a spring rise of no mean proportions. They do not fear a flood but no surprise will be caused if the water manages to reach the 25 or even the 30-foot mark. There is considerable water coming down from above and the present indications there will be a long boating season.

### WEILLE REIMBURSED.

He Hears From the Firm That Was Buncoed.

Yesterday Messrs. B. Weille & Sons received a letter from the Loth Jeans Co., of St. Louis, reimbursing the firm for a draft they had cashed for a swindler who came here last week and represented himself to be G. L. Morris, of the above named firm.

The young man was well dressed, and said he had lost some money and was going to draw on the house. He asked if Mr. Weille would honor a draft on his firm, and when Mr. Weille received a telegram from the firm authorizing the supposed Morris to draw on them, the draft was readily paid.

ately lost wallet. Wire \$50; waive identification. Postal."

Another telegram was subsequently sent asking why they didn't hurry up and send the money.

The firm offers \$50 for the arrest of the man.

### DEATH IN GRAVES.

Mr. Frank Thompson, aged 60, died yesterday at his home near Symsonia, Graves county, of consumption. He leaves a wife and children. The remains were buried in the Tucker graveyard.

### USED AN AX.

George Petty, colored, was warranted today on a charge of assaulting Sallie Hutchinson, of color, and with attempting to kill her with an ax. He was only prevented from accomplishing his purpose by the interference of outsiders.

### EXAMINATION OF TEACHERS.

School Superintendent Davidson, of Frankfort, has ordered examinations in each county Friday and Saturday, May 20 and 21, to be held by county superintendents for eligibility to teach in the common schools. The questions are already in the hands of the county superintendents.

### CARRIED TO TENNESSEE.

The remains of the late Mrs. Bowles, mother of Engineers Frank and James Bowles, were carried to Chattanooga, Tenn., today for burial. The deceased died yesterday, and the funeral was held at Broadway M. E. church this morning at 10 o'clock. Mrs. Cave and Waters officiating.

### BADLY USED UP.

Max Woods suffered at the hands of a fisherman known as "Scottie," late yesterday afternoon, near Second and Court streets. It is said that Woods drew a knife on the other, who proceeded to do him up in great shape. Warrants will be issued against both. Woods' face was badly swollen today, as a result of the conflict.

### PATRIOTIC PRINCETON.

The people of Princeton celebrated the great naval victory of Commodore Dewey at Manila at the opera house in that city last night. Addresses were made by Hons. Wm. Marble, John C. Gates, Ward Healy and others. Popular national airs were rendered by the best musical talent of the city. The city council suspended the ordinance in regard to shooting fire-crackers, etc., and gave the boys a chance to celebrate.
